Appl. No. 10/708,242 Amdt. dated December 4, 2006 Reply to Office action of November 6, 2006

REMARKS

Dependent claims 4-6, 11-77, 79, 80 and 82-108 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

- Advisory action mailed 11/06/2006 states:
 - 1. Proposed amendment(s) filed after a final rejection will NOT be entered because they present additional claims without canceling a corresponding number of finally rejected claims

Applicant cancelled claims 3,4,7-10, and 81 but added new claims 140-168. Furthermore, some amended claims are presented in alternative form increasing the number of claims, e.g., claim 5 after amendment is now 1/5 and 1/2/5.

2. ... does NOT place the application in condition for allowance because it would require further consideration of the newly added claims including various combinations of amended claims.

As explained to the Examiner in the telephone call made to the Examiner Nov 21, the applicant's previous response to the final Office action simply accepted all the allowable material specified by the Examiner. There were no additional claims entered that would require consideration as all claims pending were previously found allowable by the Examiner. Applicant points out that because the claims found allowable by the Examiner involved multi-dependencies, when amending the case to be in an allowable state, consideration must be made for both paths of multi-dependencies. Applicant respectfully asks that the Examiner carefully reconsider the above rejections as they do not appear to be valid.

As requested by the Examiner in said phone call, the applicant has herein presented the same Amendments to the Claims (see above same titled section), with a more detailed remarks section showing how each claim pending above was previously found allowable by the Examiner. No new matter is entered and no additional claims are entered. Specifically, applicant has <u>ONLY</u> amended the claims to accept all the allowable material specified by the

Appl. No. 10/708,242 Amdt. dated December 4, 2006 Reply to Office action of November 6, 2006

Examiner. Due to the large number of claims, applicant has specifically attached a table showing the claim numbers as allowed by the Examiner in the Final Office action of 08/04/2006 and the corresponding claim numbers of the above amendments. (See attached sheets.)

5

In summary of the table, applicant points out:

Allowed claims in Final OA = 99

Number of allowed claims involving multi-dependent branches = 70

10

15

Number of currently pending claims = 129

Number of currently pending claims involving multi-dependent branches = 40

Applicant points out that the effective claim count when adding single dependent claims to multi-dependent claims is 169 in both the earlier response to Office action (for which claims were indicated allowable in the Final Office mailed on 08/04/2006), and the current amendments to the claims after the Advisory action. That is, no new claim limitations have been added and applicant has simply accepted all the claims as allowed by the Examiner in the Final Office action mailed on 08/04/2006.

20

Because all claims currently pending have been previously found allowable by the Examiner, applicant respectfully requests allowance of the above identified application and that a timely Notice of Allowance be issued in this case.
